The increase noted have mainly made up the Educational (63 schools against 50, and 3,886 Policy of the Hennessy-Eitel adminisscholars as compared with 3,480 in tration. 1879) is partly accounted for by the enrolment in the ranks of Grant-in-aid Schools of the various seminaries under Bishop, and does not give any real test of the progress of Education in the (Per E. E. A. & C. Telegraph Co.'s Line.) Colony. It would have been interesting to have obtained the number of private schools conducted on the Island; and it is to be hoped that the coming Census Returns will furnish that desired information. It is noteworthy that the scope of the Report, as was fully anticipated, is governed entirely by pro-Hennessy lines, and the document is just that description of official paper that might have been concected by Governor tlennessy himself. We do not say for a moment that the Rev. Inspector of Schools even submitted his draft for the approval of His Excellency before sending it to the Colonial Secretary, for that is now entirely unnecessary. Dr Eitel is now so thoroughly imbued with strong N.E. gale with heavy sea and over- the spirit of Sir John Hennessy that it may be said to coze out of his every pere, to govern his every action, and to make known its presence in every document that takes shape from his busy There would be nothing so very as evinced in public utterances, were THE O. & O. steamer Gaelic left San Fran-

If any Debt contracted by the Officers or we could endorse the above, it would be a pleasant recreation to do so; but in the face of the present position of the Education Question here—the result of unwearied endeavours to overturn everything that existed and to replace it with nothing-the most liberal and goodnatured sympathiser of Governor liennessy could not possibly join in the Rev. Doctor's somewhat highly-pitched solo without outraging truth and common-sense. We have stedfastly contended that the Hennessy Administration has done for more harm than good to the cause of Education in this Colony; and we do not hesitate to say that no good will ever come to Education or anything else until the present Head of the Executive has left these shores, never

Probably the most objectionable por-

tion of the Inspector's report is that which professes to summarise the results of the so-called "Independent Examination" of the Central School. As we have fully dealt with this subject in previous articles, and as there is no doubt but that the matter will be, if it has not already been, fully and independently laid before the officials at the Colonial Office, there is little need to dilate further thereon. The character of the examination has been exposed; while the questionable quality of the government that could not only recognise but lay such a trap for a Public Department, and the indifferent honesty that was displayed in the statements of the returns that have already appeared. have been enlarged upon. It will probably be better for all parties if the present unblushing official summery of events in this connection be permitted merely to lie on the Rible. In the present chrysalis state of the Governmental Departments wherein a knowledge of Chipese is indispensable, a certain portentous importance may be said to attach to the document under consideration; and in that sense it may be thought by some that the game now being played is becoming dangerous. How the other three Ductors (Legge Chalmers, and Stewart) regard this recklessness on the part of Sir John Hennessy and his desperately faithful Secretary remains yet to be seen; and how the representations of the three. worthy scholars named may influence the authorities in Downing Street will soon become known to those concerned. The three sponsors of the Central School have done much for Education in this Colony; and, what is more, they have

REFERENCE to a rumour which was prevalent here some time ago, to the effect that Mr R. T. Rennie, Judge of H.B.M. Court in Japan, had been offered the appointment of Chief Justice of Hongkong, and which we gave some time ago with the remark that there might be some truth the statement, as it had been reported on fair authority that changes were pending in the judicial arrangements of the Court in Japan, the Japan Gazette, quoting our paragraph, congratulated Mr Rennie on his accession to an important judicial position second only to the bench in England, and remarked that Yokohama would lose, and Hongkong would gain, a courteous and popular official, a sound lawyer, and a deservedly esteemed member of society. Or the following day the Gazette stated that was authorized to state that the rumou was entirely without foundation, and that the China Mail had been misinformed. The rumour may have been without foundation, but it is not in accordance with the Gazette's customary accuracy and preciseness to say that the Mail was misinformed, be-

THE American system of book manufacturing is about to receive a wonderful illustration. A letter in the Times from Mesers. Cassell and Co. quotes a circular from a New York book firm, stating that they have made arrangements for setting up the whole of the revised New Testament within 24 hours after the first copy has been obtained from England, and within three days, 10,000 copies will be ready for delivery to purchasers, after which the books will be produced at the rate of 5,000 copies a day. A more striking example of the necessity of coming to some arrangement for international copyright could not be desired.

have taken :--After a career of brilliant success, extending over a decade of years, yielding annually large fortunes to many, the popular but illegal institution known as the "Umballa Derby Sweep," has suddenly come to a complete collapse. A righteous government at home was long scandalised at the immorality of permitting such an unlimited system of gambling to be openly carried on and, under strong pressure from without the local government has at length been in duced to assue its fiat, and to direct the prosecution of the representatives of the firm so well known in the sporting world as Simpkin & Co. ALLEGED LARGENY PROM A STEAMSHIP. Choi Achung 25, cook, Sun Sam Tai, 39, and Sun Afuk, 50, boatmen, were charged with stealing property worth about \$80 from the S. S. Kwanging on the 7th inst. Robert Milne, the chief officer of S. S. Kwangtung, deposed that the vessel arrived at Hongkong at 3.30 on Saturday afternoon. One of the talley men told witness that four baskets of betel lonf had been taken from the 'tween-decks. Witness told the talley man to go and look for the four baskets and he found them on the wharf. The betel leaf was a portion of the cargo of the ship. The third defendant stated that the first and second defendants had given the four

baskets into his charge. Chan Alin, a talley man on the S. S. Kwangtung, gave evidence to the effect that shortly after the steamer came alongside the wharf he missed the four baskets of betel leaf, and reported the loss to the chief officer. Witness then went to search for the missing baskets, and found them on the wharf near the Central Market, and recognised them by the marks on the outside. The third defendant was in charge of the baskets and on being questioned witness said that the first and second defendants had engaged his sampan to take them from the steamer to the Central Wharf. Witness then took the third defendant and the four baskets back to the steamer, on board which the third defendant pointed out the first and second prisoners as the men who had engaged him to take the betel leaf to the wharf, and both were arrested by witness.

The third defendant was discharged and being put in the witness box gave evidence to the effect that his name was Sun Afuk and that he was owner of licensed sampan No. 4250. On the arrival of the S. S. Kwangtung he went alongside, and on going on board to look for passengers was asked by the second defendant, whom he had known for several vente, to take the four backets of botel leaf to the Central Market Wharf. Witness knew nothing of the first defendant. Second defendant admitted hiring the sampan to take the baskets to the Ying

Loong shop. JAPAN IN LONDON.

To the Editor of the L. and C. Express. London, March 29. Sir, -Will you allow me to make one remark with respect to the meeting of the Yokohama Chamber of Commerce, reported by last mail? The report contains a notice to the effect that letters had been received from the Hongkong and Shanghai Chambers of Commerce, inviting them to co-operate in establishing a committee in London to represent the commercial interests of the Far East. This, I think, would be most desirable, and attain more effectively many ends, which otherwise fall to the ground Straits Settlements might Also be invited to join, as their interests are analo-

THE CHINA REVIEW.

continuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

taining about 60 octave pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Mannors and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resume in each number of the contents-of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department.

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or, Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is desirable to make the Queries proper as brief and as much to the point as possible.

The Ching Review for July and August 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. Ohristian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much, regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcuita Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the lienew by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of bonour is deservedly given, an excellent LEGALISED TARIFF OF FARES FOR CHAIR. summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese povels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may eyoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the Ohina Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

# THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven. Dollars Fifty Cents including postage to Coast ports. It is the first Chinese Newspaper ever

issued under purely native direction. The chief support of the paper is of course derived from the pative community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing. The projectors, basing their estimates

upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find It to their interest to avail themselves of

The field open to a paper of this description-conducted by native efforts, but progressive and anti-obstructive in tonein almost limitless. It on the one hand commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorialswith Local, Shipping, and Commercial News and Advertisements. Subscription orders for either of the
